

## Subtitle Item

Subtitle items can be used to split sections up. Currently, they are used within the 'mains' section to separate out 'Pasta', 'From the Sea', etc. They appear like this on the website menu:

Pasta

You'll notice that there is a + symbol on any section:

If you hover your mouse over this icon, it *should* display 'Add Item', like so:

Click this icon. It should display this screen:

Tick 'Subsection Title' and you should now see this:

The screenshot shows a modal window titled "Add Item" with a close button (X) in the top right corner. Inside the modal, there is a label "Item Name" followed by a text input field containing the placeholder text "Enter Name". Below the input field, there are two checkboxes: "Subsection Title" (checked) and "Publish" (checked). At the bottom right of the modal, there are two buttons: "Reset" and "Add". The modal is set against a dark grey background.

Everything else is removed, as we don't need anything else for a subtitle.

Enter a name for the subtitle:

This screenshot shows the same "Add Item" modal window. The text input field now contains the text "From the Sea". The "Subsection Title" and "Publish" checkboxes remain checked. The "Reset" and "Add" buttons are still present at the bottom right.

Click 'Add'. You should see the item appear in the list, with a purple background:

The screenshot displays a list view within a container titled "NewSection". The list contains two items. The first item is "Crispy Pork Crackling" with a subtitle "Crispy Pork Crackling served with warm apple sauce." and a price of "£4.00". The second item, "From the Sea", is highlighted with a purple background, indicating it is a subtitle. Each item has a set of icons (checkmark, plus, edit, delete) to its right.

The purple background is to show that it is a subtitle.
