

## Note Item

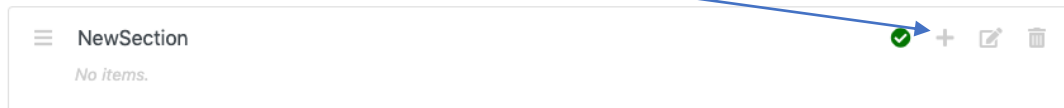

Note items are used to give additional information. They appear like this on the website menu:

---

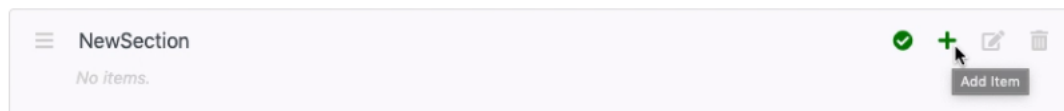

*All of our grills are served with sauteed mushrooms, pan friend tomato, beer battered onion rings and Trellech tatties or sweet potato chips.*

---

You'll notice that there is a + symbol on any section:

If you hover your mouse over this icon, it *should* display 'Add Item', like so:

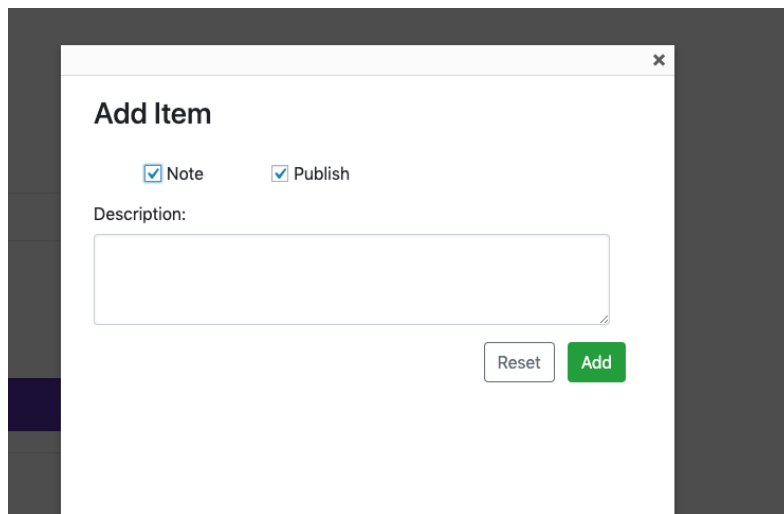

Click this icon. It should display this screen:

The screenshot shows a modal window titled "Add Item" with a close button (X) in the top right corner. Inside the modal, there are two checkboxes: "Note" and "Publish", both of which are checked. Below the checkboxes is a text input field labeled "Description:". At the bottom right of the modal, there are two buttons: "Reset" and "Add".

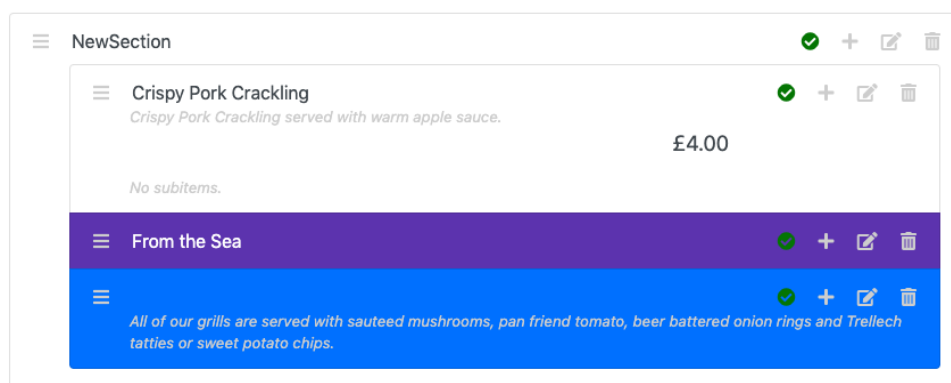

Everything else is removed, as we don't need anything else for a note.

Enter your note:

This screenshot shows the same "Add Item" modal window. The "Description:" field now contains the text: "All of our grills are served with sauteed mushrooms, pan friend tomato, beer battered onion rings and Trellech tatties or sweet potato chips." The "Reset" and "Add" buttons are still present at the bottom right.

Click 'Add'. You should see the note appear in the list, with a blue background:

The screenshot displays a menu interface. At the top, there's a header "NewSection" with a hamburger menu icon on the left and a set of icons (checkmark, plus, edit, delete) on the right. Below the header, there are three menu items. The first item is "Crispy Pork Crackling" with a description "Crispy Pork Crackling served with warm apple sauce." and a price of "£4.00". The second item is "From the Sea" and is highlighted with a purple background. The third item is a note: "All of our grills are served with sauteed mushrooms, pan friend tomato, beer battered onion rings and Trellech tatties or sweet potato chips." This item is highlighted with a blue background and has a checkmark icon to its right.

The blue background is to show that it is a note.
