# Edit Menu

Click 'Menu' on the left-side bar to bring up the list of menus:

The only 'menu editing' that you can do from here, is editing a menu's name, and whether or not it is published.

If you hover your mouse over *this* icon, you will see 'Edit':

Click this icon, and you should see this screen:

The Menu Name field will be replaced with the name of whatever menu you have clicked on.

Change the name to something different:

Click 'Save'. You will now see the name changed in the list of menus:

And on the actual website, it will have changed to something like this:

New Section
