# The Text Editor

On several screens when editing any events, you will come across this:

This is mainly used to enter descriptions for events and give more flexibility whilst doing so.

From left to right:

1. **B**

   This makes text **bold**.

2. *I*

   This makes text *italic*.

3. <u>U</u>

   <u>Underline text</u>.

4. X^2

   This adds a superscript[likethis]

5. —

   This will add a horizontal line, that will appear like the lines on the events section:
